

GREASE

MULTI-PURPOSE

RIDGELINE™

PRODUCT DESCRIPTION

RIDGELINE™ Multi-Purpose Grease is a smooth lithium-based grease suitable for a wide range of uses including automotive chassis lubrication. It provides lubrication in the presence of water and exhibits mechanical and oxidation stability insuring long greased life. This grease displays good resistance against rust and corrosion and offers superior resistance to water washout, maintaining good mobility even in cold weather, making it ideal for centralized grease systems.

APPLICATIONS

RIDGELINE™ Multi-Purpose Grease is suitable for bearing temperatures up to 121°C (250°F) and down to -12.2°C (10°F). The water washout test shows it to be applicable where water contamination is encountered. RIDGELINE™ Multi-Purpose Grease provides excellent performance as an automotive chassis lubricant, electric motor bearing lubricant, and general-purpose bearing lubrication.

FEATURES AND BENEFITS

- Water Resistant - helps assure proper lubrication and protection even in the most severe water exposure conditions
- Corrosion Protection - protection of lubricated parts even in hostile aqueous environments
- Oxidation Stability - helps extend grease life and enhance bearing protection in high temperature applications helping to reduce maintenance and replacement costs
- Economical - premium performance in a low-cost formula

SPECIFICATIONS

RIDGELINE™ Multi-Purpose Grease meets the following specifications:

	MULTI-PURPOSE GREASE
Soap Type	Lithium
NLGI Grade	2
Color	Dark
Texture	Smooth, Buttery

TYPICAL PROPERTIES

Property	Data
NGI Grade	2
Dropping Point °F, Min	365
Worked Penetration @ 77°F, 60 Strokes	295
Base Oil Viscosity @ 40°C, cSt	140

The physical property values above are typical of normal production and may vary.

DISCLAIMER

Always follow OEM recommendations for fluid viscosity and API service category. Parkland Fuel Corporation takes no responsibility for product misuse or misapplication.
